Attachment A: Summary of stakeholder comments on Gas Supply Hub Exchange Agreement Consultation
IIR 019

Organisation	Summary of comment	AEMO's response
AGL	Support the proposed amendment and encourage timely implementation. Would like to see consideration of a trading location on the EGP as part of this consultation.	<p>Noted, AEMO has determined to proceed with implementation.</p> <p>A trading location on the EGP was not part of this consultation and therefore is not being considered as part of the determination. If members see value in extending the GSH model to the EGP, they are encouraged to raise the matter at the next Gas Supply Hub Reference Group for consideration.</p>
