

PPC response template for IN002/15W and IN026/15 (New JECs) – Responses to be emailed to grcf@aemo.com.au by 4 September 2020

Review comments submitted by: *Australian Gas Networks*

Date: 4/9/20

Contact Person: *Rick Abbott*

If your organisation **only participates in WA** then complete only sections 1A and 2. Section 3 is optional.

If your organisation **only participates in east-coast jurisdictions** then complete only sections 1B and 2. Section 3 is optional.

If your organisation **participates in both WA and east-coast jurisdictions** complete sections 1A, 1B (*note: if your assessment of the PPC is the same for 1A and 1B then write "as above" in section 1B*) and 2. Section 3 is optional.

Section 1A - General Comments on the Proposed Procedure Change **for WA** (IN002/15W).

Topic	Please Provide Response Here
<p>Sections 1 to 9 of the PPC sets out details of the proposal.</p> <p><u>In respect of the changes proposed for WA</u>, does your organisation supports AEMO’s assessment of the proposal?</p> <p>If no, please specify areas in which your organisation disputes AEMO’s assessment (include PPC section reference number) of the proposal and include information that supports your organisation’s rationale for not supporting AEMO’s assessment.</p>	

Section 1B - General Comments on the Proposed Procedure Change for east-coast jurisdictions. (IN026/15)

Topic	Please Provide Response Here
<p>Sections 1 to 9 of the PPC sets out details of the proposal.</p> <p><u>In respect of the changes proposed in east-coast jurisdictions</u>, does your organisation supports AEMO's assessment of the proposal?</p> <p>If no, please specify areas in which your organisation disputes AEMO's assessment (include PPC section reference number) of the proposal and include information that supports your organisation's rationale for not supporting AEMO's assessment.</p>	<p>AGN generally supports AEMO's assessment of the proposal in principle, subject to the confirmation and endorsement of estimated IT implementation costs.</p> <p>Note that AGN has some concerns regarding AMLM (attach meter locks for move outs), if there is potential for this to become standard practice for retailers. This is not usually performed currently and would require additional DB resourcing. We'd like to seek an undertaking from the retailers that they wouldn't be changing their standard procedures to <u>always</u> attach a lock on move out, to ensure no resourcing impact on the DB's ability to meet its other obligations.</p> <p>We are also concerned about the increased risk that if a meter is locked on move out, then a future new occupant may be less likely to reconnect to gas, particularly if they only have one gas appliance.</p>

Section 2 - Feedback on the documentation changes in the Attachments of the PPC.

Please note which references you should provide comment on given your jurisdiction are shown in gold:

Section 3¹ – Additional feedback that is not part of this consultation but warrants further investigations / discussions.

Topic	Please Provide Response Here
Does your organisation have any feedback / suggestions that closely relate to the scope or impacts this consultation, but the nature of the feedback / suggestion warrant further investigations / discussion? If so, please included your feedback / suggestions.	Consider reviewing ROLR documentation to determine if any of the new JECs need to be specified in reports for example, in the SA document called 'FRC B2B System Interface Definitions', section 8 - List of cancelled Service Orders (T1050). May require JEC list update.

¹ Note - This feedback will be reviewed by AEMO at a later date, therefore will not be used for this consultation. AEMO will complete a preliminary assessment of the feedback assess the feedback and it may then form part of another consultation or the annual prioritisation process
