Please complete sections 1. Section 2 and 3 is optional.

Section 1 - General Comments on the Impact and Implementation Report

Topic	Please Provide Response Here
<p>Sections 1 to 8 of the IIR sets out <u><i>AEMOs critical examination of the proposal</i></u>.</p> <p>Does your organisation supports AEMO’s examination of the proposal?</p> <p>If no, please specify areas in which your organisation disputes AEMO examination proposal and include information that supports your organisation rational why you do not support AEMO examination.</p>	<p>AGN agrees with AEMO’s examination and supports the proposal. On preliminary examination our estimate is that implementation costs will be moderate.</p> <p>However, it should be noted that whilst AGN’s PPC response was sent to AEMO on June 12th, it has not appeared in the participant feedback in the IIR.</p> <p>In the PPC response we raised some issues with the proposed technical documents, a number of which were not raised by other participants or addressed by AEMO in its response to the PPC industry feedback.</p> <p>These issues have been repeated in section 2 below.</p>
<p>Section 9 and 10 of the IIR set out <u><i>AEMOs recommendation and timeframes</i></u>.</p> <p>Does your organisation supports AEMO position to recommend the procedures changes and the timeline for those procedures change to take effective?</p>	<p>AGN’s expectations following Life Support and Customer Details industry workshops would be for further updates to gas technical documentation e.g. All references should be only to gas technical documentation rather than in any electricity technical documentation, final updates to documentation with approval from GRCF participants.</p>

Section 2 - Feedback on the documentation changes described the Attachments of the IIR.
